RECEIVED  
AUG - 9 2001  
TC 3700 MAIL ROOM

Attn: Mr. Michael Koczo, Jr.

Dear Mr. Koczo:

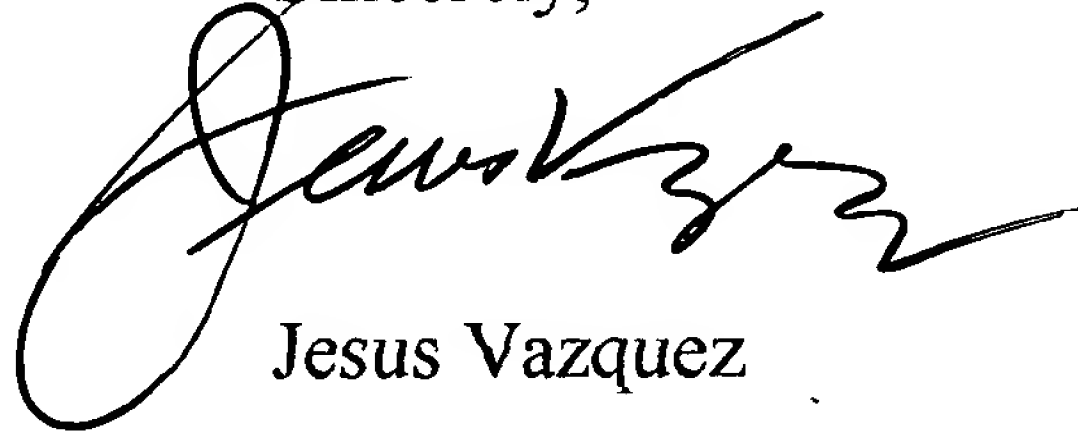

In response to your office Action Summary mailed on the May 02, 2001 and the kind cooperation expressed by you during our recent telephone conversation, please amend the above application as per your request. I hereby certify and declare that no new material has been introduced now or at any time in the past into any aspect or part of this application. As per your request and in order to make the language much clearer I have had to extensively change much of the functional and operational language and include specifications that better illustrate the method and means of function of the device and at the same time help elucidate the novel and unobvious aspects or properties of the invention.

As instructed I have included a separate copy of the amended claims with the language changed underlined.

Please excuse the errors in my original claims. Because of financial and time constraints I was forced to try and file this patent and response on my own without the aid of an attorney.

I beg and appreciate your indulgence in this matter to the best of your allowed discretion.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jesus Vazquez', with a large, stylized initial 'J'.

Jesus Vazquez
